GROUP CRIT ANNOUNCED A SECOND ACQUISITION IN SPAIN

In line with its strategy of growth in the most dynamic markets in Europe, Crit Group, after the acquisition of Spanish Temp. company Tutor in April 2006, further strengthens its positions in Spain with the acquisition of the ADDENDA Group signed on June 20th, 2006 .

With sales of 37 million euros in 2005 and a network of 18 branches, the Addenda group is mostly involved in temp. Business (77% of its activity), and also supplies services to companies in industrial and service sectors.

Addenda offers a very good complementarity in terms of customers and geographical segments with the network Crit Intérim already established in Spain. With this acquisition, Crit Group can meet the needs of customers with a national offer.

With this acquisition, the group can rely on a total network of 37 branches spread over the Iberian territory and forecasts to reach sales close to 70 million euros on a full year basis in this country.

Group CRIT is one of the leaders in Temp business in France. Parallel to its core business, the group profits from a strong positioning in the sector of the Airport Assistance and from a business segment specialized in Engineering and Maintenance. Listed on compartment B of Eurolist Euronext Paris, Group CRIT is part of indices CAC Mid&Small 190 and SBF 250.
